- Scored 90% in the Ethical Hacking Course (Value Added Course)
- Secured 2nd position in B – Plan (15th Techno Vision IT Fest 2024)
- Participated in Code Rush competition (16th Techno Vision IT Fest 2025)
- Ranked 16th out of 57 in overall semester performance in BCA
- Solved 94+ algorithmic problems on CodeChef – Bronze Problem Solver badge.

SKILLS

- HTML5 • CSS3 • JavaScript • React,js • Node.js
- Figma • Vite • Python • Netlify • GitHub Pages • *GSAP*
- Competitive Programming • Git + Github • Firebase

COURSES

Under-Graduate

- Web Technologies (HTML, CSS, Javascript)
- Discrete Mathematics
- Data Structure and Algorithm using C
- Object Oriented Programming with C++
- Database Management System
- Computer Organization and Architecture
- Software Engineering
- Java Programming
- Cloud Computing

PROJECTS

Biodegradable Plastics Lifecycle Simulation Website

📅 Apr 2025 - May 2025

- Developed an interactive 3D simulation using **React Three Fiber** and the **MERN** stack to showcase the lifecycle of biodegradable plastics.
- Integrated **Chart.js** for visual analytics and used dynamic components for user interaction and educational content.

Nursery Green Finger – Plant Booking Website

📅 Dec 2024 – Jan 2024

- Focused on promoting urban greenery and sustainable gardening through an intuitive online platform.
- Users can explore plant varieties, view details, and book online. Integrated **booking form**, **availability checker**, and **confirmation module**.

SanSocial

📅 Aug 2024 – Oct 2024

Developed a **lightweight, privacy-focused social media platform** that allows users to share posts, like, and comment.

Dashboard of Intecom

📅 May 2024 – Jul 2024

- Focused on a clean UX with dark/light themes, collapsible sidebars, and responsive layout for both desktop and tablet screens.

EXPERIENCE

Web Developer Intern
Utsavbox

📅 Aug 2024 – Oct 2024

- Customized **Shopify** storefronts for festive campaigns like **Ganesh Chaturthi**, including video sliders, delivery selectors, and animated product cards.
- Built reusable **Liquid components**, optimized store speed, and designed visually engaging layouts for product promotions.

EXTRA CURRICULAR

- Led and organized a college-wide AI/ML competition including dataset creation, judging criteria, and participant evaluation.
